

13th April

Concluding ceremony of Flood Rehabilitation workshop

IAP-LC

The concluding ceremony of the workshop on “Flood Rehabilitation Shelter; Construction with indigenous Building materials and methods” was held at COMSATS, Lahore. The Chairman Punjab HEC, Prof. Dr. Shahid Munir, inaugurated the shelters constructed by the students. Ar. Shahid Khan, CEO Indus Earth Tryst, Ar. Syed Rameez Haider, Ar. Shazia Hanif, and Ar. Aksam Qureshi were the instructors for the workshop.

27th April

Ar. Yasmeen Lari wins RIBA Royal Gold Medal 2023

IAP

It is a proud moment for IAP to announce that Yasmeen Lari, country’s prominent Architect and one of the founding members of IAP has been awarded the Royal Institute of British Architects' Royal Gold Medal for 2023 in recognition of the humanitarian work "she has undertaken since her retirement".

Lari, who was Pakistan's first female architect, is the second woman to receive the accolade in her own right following Zaha Hadid. She was recognized for her socially conscious work and for creating homes for the country's most marginalized communities following her retirement from formal practice.

28th April

Ar. Pervaiz Vandal & Ar. Sajida Haider Vandal
receive Canadian Society Award

IAP

Canadian Ramgarhia Society has honoured Pakistan's legend architects and educationists professor Pervaiz Vandal and professor Sajida Haider Vandal with lifetime achievement awards for their research work (book) in highlighting the architectural legacy of Punjab's foremost architect Bhai Ram Singh. Both the architects were nominated for awards in August 2022 on the occasion of the 164th birthday celebrations of Bhai Ram Singh by prominent Sikh Scholar Jaiteg Singh Anant head of Hardarshan memorial International Trust Canada.

Architect Kamal Sinan

Architect Kamal Sinan is a well-known name in the field of architecture, with a wealth of experience and extensive knowledge in the domain. He graduated from the University of Manitoba, Canada, with a degree in Bachelor of Architecture in 1994 and a Master's degree in Architecture in 1996. He has been working in the industry for over two decades and has a rich portfolio of projects that highlight his versatility and craftsmanship.

Most Significant Projects

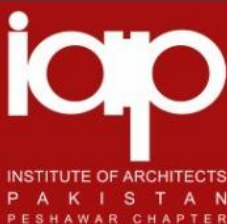

One of his most significant projects is the Muscat Palace of Sultan Qaboos bin Saeed, where he showcased his exceptional talent in designing palaces and royal buildings. The Palace is a magnificent example of Islamic architecture and has been praised for its intricate designs and details. Similarly, his work on the Mall of Emirates Dubai and Shariya Court in Abu Dhabi is a testament to his skill in designing commercial and governmental buildings.

Iconic Buildings in the Middle East,

In addition to designing iconic buildings in the Middle East, Kamal Sinan has also contributed to the architecture scene in Pakistan. His work in Islamabad and Rawalpindi includes impressive projects such as The Centaurus Mall Islamabad, Sardar Tanveer Ilyas Khan Sahab Palace in Rawalakot, and The Aquatic Mall. These projects showcase his unique style, which is versatile and adaptable to different environments and requirements.

Kamal Sinan's style of architecture is characterized by a strong emphasis on functionality and sustainability. He believes that architecture should be designed with the purpose of provoking dialogue, interaction, and engagement. Each of his projects reflects a unique approach and design philosophy that is rooted in his passion for creating inspiring spaces.

Overall, Kamal Sinan's contribution to the field of architecture makes him a prominent figure in the industry. His designs reflect his artistic vision, coupled with his expertise in architecture, creating beautiful buildings that are both functional and awe-inspiring.
