THE GUEST SPEAKER

**AR. TARIQ HASAN**

THE ARCHITECTS/ STUDIO TARIQ HASAN

Tariq Hasan has a simple and rational work ethic; excellence and innovation in design followed up by thorough detailing and vigilant construction supervision. This approach to design and execution is independent of the scale of the task. Its philosophy and approach to architecture is a progressive one. Tariq Hasan fits very well into the category of contemporary architects with a mind to explore and execute challenges. Every decision that comes out is after much self criticism and enhancement. To him, the act of architecture is a depth study of the client, an assessment of his psychological preferences, emphasizing the start of a journey.

THE GUEST SPEAKER

**AR. SAMAR ALI KHAN**  
DESIGN GROUP PRACTICE

Samar Ali Khan is an architect, philanthropist and politician (not necessarily in that order) and has been leading Design Group Practice since its inception in 1989, after having graduated from the University of Texas, Houston, in 1983

The philosophy espoused by Samar Ali Khan, and manifested through the works of Design Group Practice, is centred around constructing organic, sustainable and holistic environments that balance the built with the natural, stemming from a deep understanding of our climate, culture and context. Our architecture exists at the confluence of indigenous construction methodologies and global digital technologies.
